Journal of Sedimentary Petrology

INDEX TO VOLUME 5

Page

Abert Lake sediments....11, 15
Acetic acid for insoluble residues.... 146
Adams, F. D., cited.... 111
Adams, S. F., cited.... 110
Aerobic bacteria....32, 33, 34, 35
Agar, W. M., on cherts of the Tri-State District.... 53
Alderman, J. E., cited.... 75
Allgeier, R. J., cited.... 36
Andrews, A. E., cited.... 72
Antevs, E., lake sediments collected by.... 9
"Antidune" phase, eolian ripple mark.... 133
Archangelski (y), A. D., cited.... 92
Ardmore Basin.... 96
Ardmore Basin, map of.... 96
Ardmore Basin, section of.... 96

Behre, C. H. Jr., cited....116, 120
Bentonite in Europe.... 145
Birge, E. A., cited.... 36
Black, C. S., cited.... 36
Bottom deposits of Lake Michigan.... 57
Bottom samples, Pacific Ocean.... 37
Bowman, I., cited.... 9
Bretz, J. H., cited.... 77
Bucher, W. H., cited.... 134
Bushinsky, G. I., article by.... 81
Butler, B. E., cited.... 134

California Lake sediments....11, 19, 30
Cape May, New Jersey, eolian ripple mark.... 133
Caples, W. G., cited.... 62
Cambro-Ordovician limestones, Lehigh Valley.... 123
Carnegie, last cruise of.... 37
Carson Lake sediments....11, 23, 24, 26, 27
Carson Sink sediments....11, 23, 24, 26
Chi-Square test.... 139
Clarke, F. W., cited.... 38
Coefficient of correlation.... 138
Cogen, W. M., article by.... 3
Cornish, V., cited.... 62
Correlation, coefficient of.... 138
Cox, E. P., cited.... 112
Cressey, G. B., cited.... 61
Crump Lake sediments....11, 17
Cullison, J. S., cited.... 8

Davenport, A., cited.... 36
Deason, H. J., cited.... 61
Deep sea bottom samples.... 37
Dolocasts....129, 149
Domogalla, P. P., cited.... 36
Dryden, L., cited....8, 138

Page

Dryden, L., reviews by 150
Dust cloud over Washington 52
Dust cloud over Washington, minerals of 52
Dust cloud of Washington, dimensions of particles of 52

Eddy, G. E., cited 122
Eisenhart, C., article by 137
Emmons, S. F., cited 116, 118
Engelhardt, cited 92
Eolian ripple mark 133

Feldspar, detrital, frequency *percentage determination* *109*
Filipesco (cu), M. G., reviews of articles by 150
Fisher, R. A., cited 140, 145
Fluvial gravels *52*
Fowler, G. M., on cherts of the Tri-State District 53
Fred, E. B., cited 36
Frequency percentage determination 109

Gabriel, A., cited *112*
Gilbert, G. K., cited 134
Girty, G. H., cited 96
Glacial deposits in *Massachusetts Bay* 40
Goldston, W. L. Jr., cited 96
Goose Lake sediments 11, 17
Gravels, fluvial 52
Grawe, O. R., cited 8
Great Basin sediments 9
Gregory, F. E., on cherts of the Tri-State District 53

Harrington, M. W., cited 61
Hand, I. P., on Washington dust cloud 52
Hawkes, L., cited 8
Hazen, Nevada, *sediments from* 26
Heavy mineral investigations 3
Heim, A., cited 39
Henderson, C., cited 72
Hills, J. M., article by 123
Honey Lake sediments 11, 19, *21, 22*
Horse Lake sediments 11, 19
Hough, J. H., article by 57
Hough, J. H., cited *50, 65, 78*
Humboldt Lake sediments 11, 23, 24
Hunzicker, A. A., article by 9

Insoluble residues 115, 123, 146
Iron-bearing Liassic rocks of Sweden 151
Irving, J. D., cited 116, 118

Johnson, D. W., cited 72
Juday, C., cited 36

Kenosha, *Wisconsin, profile in Lake Michigan* 71
Kindle, E. M., cited 62, 75, 77, 134
King, P. B., cited 102
Krumbein, W. C., cited 59
Kummel, H. B., cited 93, 123

Lake Ardmore member, Ardmore Basin 97
Lake Mendota microflora 31
Lake Mendota muds *31*
Lake Michigan Basin, map of 60
Lake Michigan Basin, physical characteristics 59, 60
Lake Mighican, bottom deposits of 57
Lee, G. V., cited 39
Lehigh Valley 123
Lehigh Valley section 124

Page
Lithological variation, test for significance of 137
Loughlin, G. F., cited 116, 118
Lucas, E. L., article by 96
Lyden, J. P., on cherts of the Tri-State District 53

McCoy, Elizabeth, article by 31
McQueen, H. S., cited 115, 122, 125, 129
Mackie, W., cited 36
Manitou limestone, Colorado 118
March, H. W., cited 36
Marine erosion of glacial deposits 40
Martens, J. H. C., cited 102
Martin, H. G., cited 122
Martin, L., cited 78
Massachusetts Bay sediments 41
Mechanical analyses 42, 43, 44, 45, 49, 67, 70, 76, 93
Michigan City, Indiana, profile in Lake Michigan 66
Microflora of Lake Mendota 31
Middle Alkali Lake sediments 11, 19, 20
Milner, H. B., cited 8, 103
Miser, H. D., cited 96, 102
Moore, H. B., cited 92
Mortimore, M. E., cited 8
Mosquito Range, Colorado, geologic section 116
Mosquito Range, Colorado, Paleozoic limestones of 115
Mud deposits of Lake Mendota 31
Murray, J., cited 39

Nevada lake sediments 11, 23, 24

Ockerman, J. W. 122
Oregon Lake sediments 11, 12
Otto, G. H., cited 8, 75, 112
Overbrook member, Ardmore Basin 97

Pacific deep sea bottom samples 37
Palmquist, S., review of article by 151
Pebbles in Massachusetts Bay 47, 48
Peerless shale, Colorado 118
Pegrum, R. H., cited 77
Pelican Lake sediments 11, 17
Pennsylvanian sandstones of Ardmore Basin 96
Peterson, W. H., cited 36
Petrography of the Pennsylvanian sandstones of Ardmore Basin 96
Petrography of sedimentary rocks 106
Pettijohn, F. J., cited 8, 57
Phosphorites of Russia 81
Piggot, C. S., cited 39, 92
Pipette method 93
Primrose member, Ardmore Basin 98

Quartz, detrital, frequency percentage determination 109

Raymond, P. E., cited 47
Reed, C. M., article by 11
Renard, A. F., cited 39
Revelle, R., article by 37
Ridge, J. D., cited 8
Rod Club member, Ardmore Basin 97
Rogers, A. F., cited 92, 111
Roundy, P. V., cited 96
Rubey, W. W., cited 38
Russell, R. D., article by 109
Russia, phosphorites 81

St. Clair, D. W., article by 146
St. Joseph, Michigan, profile in Lake Michigan 66

Page

Saugatuck, Michigan, profile in Lake Michigan 66
Schalk, M., article by 40
Schermerhorn, L. Y., cited 59, 62
Sediments of Lake Michigan 63
Shaw, E. W., cited 8
Shepard, F. P., cited 40, 68
Shrock, R. R., article by 9
Singewald, Q. D., article by 115
Singewald, Q. D., cited 97, 116, 121
Smith, S. I., cited 77
Smythe, J. A., cited 8
Sources of Lake Michigan sediments 63
Soule, F. M., cited 58
South Haven, Michigan, profile in Lake Michigan 66
Spring formation, Ardmore Basin 97
Statistical method 139, 141, 145
Steinreide, F., cited 146
Stetson, H. C., cited 38, 40, 47, 68
Stimpson, W., cited 57, 78
Summer Lake sediments 11, 14
Sweden, iron bearing Liassic rocks of 151
Szadeczky-Kardoss, E. v., on fluvial gravels 52

Taff, J. A., cited 96
Test for significance of lithologic variation 137
Thiel, G. A., cited 8
Time chart for analysis 93
Tomlinson, C. W., cited 96
Townsend, C. M., cited 61
Trask, P. D., cited 38, 42, 68
Trowbridge, A. C., cited 8, 40
Twenhofel, W. H., cited *31, 36*
Twenhofel, W. H., reviews by 52, 53, 54, 145
Tyler, S. A., review by 106

Uhl, B. F., cited 103
Upper Lake sediments 11, 19, 20

Ward, W. B., cited 60
Waring, G. A., cited 12, 13
Washington dust cloud 52
Waters, J. A., cited 96
Waukegan, Illinois, profile in Lake Michigan *71*
Weller, S., cited 145
Wentworth, C. K., cited 128, 129
Wheeler, W. C., cited *38*
Willard, B., article by 133
Wilmarth, M. G., cited 130
Wilson, F. C., cited *36*
Wright, S., cited 62

Yule, G. W., cited 145
